1

Hi, I am **SOLEDAD**

In the realm where technology, art, and leadership converge, my journey unfolds. As a Telecommunications Engineer (MSC), artist, and creative leadership coach, I've ventured from the corporate world to the expressive world of ceramics.

In 2022, ChiefWitchOfficer Studio was born, a haven where art thrives as a catalyst for leadership and creativity.

My artistic mission is clear: the empowerment of women. My creations boldly champion 'by and for women,' using recycled materials to craft striking pieces. This vision has propelled me onto the global art stage, with exhibitions gracing prestigious galleries worldwide.

Ceramics is my language, transcending mere medium to convey emotions and messages. Each piece embodies a part of me, resonating deeply with those who connect with my work.

My art has become a universal symbol of female empowerment, inspiring me to pen 'Chief Witch Officer: Discover the powers that will make you succeed.'

Beyond artistic pursuits, my commitment extends to supporting women in their entrepreneurial journeys and aiding those facing financial hurdles. Through art, we forge a path towards progress.

Amidst my favourite themes, I wield spherical forms to celebrate the values of real-world women, emphasizing inner essence over outward appearances. Thus, the XL women collection, 'BELLAS,' continues to flourish, radiating the joys of health, sorority, superpowers, and the aspiration to inspire great artists and filmmakers alike.

In my_portfolio, you'll discover a world of art that celebrates the essence and strength of women. Each piece invites you to delve deeper into the domains of creativity and passion. Explore this artistic universe, where imagination and reality intertwine to inspire and connect. Welcome to my journey, where every artwork tells a story of resilience and beauty!

I present

ChiefWitchOfficer Studio

A clear vision of the importance of creativity in the digital age moved me to create ChiefWitchOfficer Studio: creativity and leadership factory.

My personal workshop where you can share ceramics as a means to disseminate, inspire and empower creative leadership. A place focused on sustainability, transported to a creative dance by the hand of the four elements of alchemy:

The land that gives us the mud, the clay that connects us with the base of our planet.

The water that gives fluidity and plasticity to the material and allows to transfer and express feelings.

The air, invisible, but present in the breath of each piece. the same air that gives them life and dries them, hardening them little by little.

The fire, with its transformative power, the one that turns the piece into ceramic, the one that vitrifies it and the one that, in our case, is a source of natural and ecological solar energy.

A factory of creativity and leadership that adds color to each of the ideas that have the luxury of being born there.

LEGENDS

[@chiefwitchofficer](https://www.instagram.com/chiefwitchofficer)

Celebrate the strength and beauty of women around the world with our art and text series, "Legends." Works created to uplift and empower women, recognizing their achievements and honoring their greatness. Inspiration from Legendary Women transformed into passion with lasting impact.

3

Legend of...

THE WOMAN WHO WANTED TO BE CROWNED

Legend has it that in a distant kingdom there lived a beautiful lady named WOMAN. From an early age, she dreamed of being crowned queen and her bravery and determination led her to achieve that difficult goal by making her wish come true.

One day, while wandering through the forest, WOMAN came across a group of old women who seemed to be performing magical spells and incantations. Captivated by his wisdom, she sought his advice to turn her dream into a reality. They suggested that she build her own crown, but not just any crown, but one that reflected her inner values and was a physical manifestation of her worth. It would be a crown that would make her really worthy of being crowned as a distinguished woman... and so she did, WOMAN created the most beautiful crown: "The crown of the woman".

He decided to forge a simple crown of brass or copper, dispensing with the use of gold or precious stones. Instead, he created a simple base that he embellished with little symbols, using needles as if he were stitching each of his values onto it. Thus he began to weave the crown from the story of his own life:

Many times she was labeled a witch for her wisdom and WOMAN wanted to proudly wear an old hat with a peak, a symbol of witches, as a legacy of her bravery. She recognized the importance of these women and their mission, saw in her hat a daily reminder to push boundaries and question social norms.

[illegible]

His love for the land was inexhaustible, and he traveled the world to learn about their cultures, humanize and respect the tides of globalization. Her travels inspired her to weave a web of her adventures, strengthening her spirit and leading her to seek a brighter future.

WOMAN desired a crown fit for a queen, and her heart overflowed with all that she valued. Although he spent each day in front of the glare of a computer screen, he never lost sight of his purpose. For many, the buzz of technology is exhausting, but the legendary woman transformed her device into a magical crystal ball, using it to connect with the world, search for a thousand answers, and build a future guided by her intuition.

WOMAN desired a crown fit for a queen, and her heart overflowed with all that she valued. Although he spent each day in front of the glare of a computer screen, he never lost sight of his purpose. For many, the buzz of technology is exhausting, but the legendary woman transformed her device into a magical crystal ball, using it to connect with the world, search for a thousand answers, and build a future guided by her intuition.

She stopped for a moment to put on her makeup, wanting to look impeccable and show off the amulets that occupied the needles with which she showed her concern and care for her health. WOMAN learned from a young age to take care of both herself and her environment. Concerned with preventing disease and compassionately caring for those who suffered from it, she was dedicated to achieving balance between body and mind. He practiced mindfulness, some relaxation rituals and, unfortunately, had to follow strict diets that made lettuce an essential amulet for his coronation. She adopted a healthy lifestyle by accepting the constant challenge of taking care of herself and those around her.

Almost covering the crown, MUJER decided to incorporate music into her life by singing a song. Listening to lyrics and notes that produce so much joy. She invested her passion and energy into every needle and amulet in her life. WOMAN believed that not only she, but all women in the world had the right to hear an "Olé, Olé and Olé!" every day!

She concluded the garland by weaving a flower garden, a display of joy, imagination and creativity that she dedicated to all the women who, like her, could show their own interior.

And when the wise women saw her return to the forest, wearing her beautiful crown, they felt proud and inspired by WOMAN, who with perseverance, love, courage and wisdom made the impossible possible. WOMAN had already fulfilled her dream, showing that the strength and achievement of each woman deserve the honor of being crowned.

Legend of...

TRANSCENDING BEAUTY: ETHICAL EVOLUTION

Beauty and sustainability converge in this exceptional sculpture with a deep message. Crafted from a distinctive blend of clay, ceramics, yarn, and recycled can tabs.

This bust of a woman symbolizes the potential for transformation and the endless scope of creativity: One half embodies perfection, while the other is fashioned from recycled materials, inviting us to reconsider our values and find beauty in the unexpected.

It represents the ethical evolution of technology, urging us to ensure that technological advancements respect human dignity but aiding in healing illnesses.

The legend

Legend speaks of a woman who, observing her world's evolution, emerged amidst turmoil. Witnessing technology's unchecked impact on humanity, she felt compelled to act. Fueled by passion and guided by ethical principles, she embarked on her transformative journey. Through her own metamorphosis and a blend of clay, ceramics, yarn, and recycled can tabs, she symbolized beauty and sustainability. Her transformation stood as proof of the potential when empathy and ethical innovation address global challenges, respecting human dignity.

Her journey inspired a movement, advocating for ecological preservation and ethical technological progress. She epitomized the transformative power of technology honoring human rights, a beacon of hope for a conscientious, compassionate future.

Legend of...

WOMAN UNLEASHED

Celebrating Women's Leadership and Empowerment Through Pop Art

In the mythical tales of the past, stories were told of legendary women who rose above the limitations of their time and left a mark that would last for centuries. This sculpture of a female bust adorned with empowering messages embodies the spirit of these legendary women, who refused to be silenced or held back by the norms of their society.

With her powerful gaze and strong presence, she stands as a symbol of female leadership and empowerment. Her message, written in the vibrant language of Pop Art, reaches the hearts of all those who dare to dream of a more just and equal world.

As we gaze at this work of art, let us be inspired by the courage and determination of the women who came before us. Let's keep fighting for the recognition and equality we deserve, and never forget the power of our voices and the strength of our spirit.

Because it is through our collective efforts that we will create a brighter and more equitable future for all women, forever.

Legend of...

BORN OF NATURE

Long ago, there was a legend that whispered across the lands about a mysterious woman who lived deep in a forest. It was said that she possessed an unparalleled love and connection to nature. This woman spent her days among the trees and flowers, singing to the animals and playing with the streams. It was said that she was the guardian of the forest, protecting its creatures and encouraging their growth. But on one fateful day, a huge fire swept through the forest, leaving destruction in its wake.

The woman, who had tried to put out the flames, disappeared and was never seen again. However, from the charred remains of a tree, the woman was reborn. Her body was formed from the trunk of the tree and her arms from its branches. With her new strength, she set out to restore the forest to its former glory. The villagers who lived near the forest whispered that the woman was a spirit of nature, brought back to life to heal the land. They claimed that whenever the wind blew, they could hear her soft laughter and feel her warm embrace.

This is how the ancient legend of the Woman of the Forest lives on, inspiring all who listen to her to value and protect nature, and to remember the importance of living in harmony with the world around us.

An artist from Pozuelo de Alarcón

**BELLA
MARIA**

Legend has it that Don Hernando de Alarcón, Marquis of Valle Siciliana, one of the first swordsmen of Emperor Carlos V, arrived tired and thirsty after a hunt in a town in these places. María, the young daughter of the owners of the place, kindly offered water from her well to Don Hernando.

The marquis was captivated by the maiden and delighted with the delight of the water and the peace of the place. Such was the emotion of the gentleman that he felt the impulse to buy from María's relatives, the well and the lands surrounding it, where he built and established his home.

The story has lasted through the centuries and has contributed to the identity and name of Pozuelo de Alarcón.

Tribute to medicine...

BELLA DOC

SKU BELLAS-22-012-U

chiefwitchofficer.com

Discover the power and dedication of the Bella Doc, a sculpture that honors women physicians and their invaluable work in healthcare. This figurine captures the essence of an empowered and committed doctor, ready to face any challenge with her knowledge and experience. Convey confidence and professionalism with a constant reminder of the positive impact women in the medical field have on our lives.

Whether you're looking for inspiration or want to honor a special doctor in your life, this sculpture makes a meaningful and emotional gift.

Our Lady takes care of the woman...

THE VIRGIN OF GUADALUPE

Oh, Virgin of Guadalupe, radiant star,
Protector of women at all times.
With your maternal love and divine protection,
Inspire us all in our mission.

In you we find refuge and comfort,
Your presence fills our longing for peace.
Bless all the women of the whole world,
And help us achieve a more certain future.

Virgin of Guadalupe, we ask you with love,
Protect all women, now and always with fervor! May
your love guide us and drive us to fly,
In your hands we trust, without ceasing.

You are the beacon of happiness
Your laugh illuminates
With your divine grace, guide us towards good,
And it shows women that joy is a great power.

May your eternal smile guide us in our walk,
And drive us to live with passion and without ceasing.
Virgin of Guadalupe, with your unparalleled grace,
Protect and accompany all women, especially.
